ST. ANDREW'S CROSS

HUNTSMAN

Below are a few of the services we offer to ensure that your home and business environment are safe, hygienic and pest free.

A General Pest Treatment targets cockroaches, webbing spiders, silverfish, and wasps nest present on the day. We complete a thorough spray to all accessible external and internal areas of the home and property including the roof void, sub floor and garage.

A Termite Inspection is a thorough visual inspection of all accessible areas of the home and property. We use a Thermal Imaging Camera and Moisture meter with all Inspections. A Termite Inspection report is also provided and discussed.

A Rodent Service involves an inspection of the property to locate evidence of rodent activity and entry points. We assess the level of rodent pressure at the property and what areas can possibly be proofed and recommend what is required to eradicate the problem.

A German Cockroach Treatment is specifically designed to flush out and eradicate living German Cockroaches. German Cockroaches are introduced into a property and if left untreated, they can multiply rapidly and quickly become a health issue.

Termite Protection for existing homes - We are accredited installers for Treated soil zones or Termite Monitoring and Baiting system depending on the construction of your home.

Pre Construction Termite Protection. Building a new home or adding an extension to an existing property - We are accredited installers of HomeGuard products.

RESIDENTIAL - COMMERCIAL - STRATA - REAL ESTATE
