Teaching since 2010

Languages spoken: English, French & Romanian

*Hi, my name is Felicia TELEUCA. I am a professional tailor and teacher of sewing since 2006.*

*I have experience in women's garments, pattern-making, and grading. I started a fashion services business in 2010 and since I have successfully developed several services for fashion professionals and private persons across Europe.*

*Since 2011 I did contract work for well-known fashion houses in Belgium, France, and the Netherlands, where I learned a wide range of pattern-making, grading, sample-making, and haute-couture tailoring techniques. Occasionally, I have classes in sewing, design, and patterning for my private clients.*

*I love to teach my students the best sewing construction and neatening methods to use and how to achieve quality garments that look professional and fit well.*

*I try to approach teaching sewing differently than the way I learned. For me sewing isn't about obeying rules, I talk about sewing the way I experience it - sewing is about creative expression and a sewing machine is a really effective tool to do it with.*

*Of course, everything starts at your level.*

*I have had students of all levels from beginner to advanced and some professionals too.*

*I could adapt my class to function with your project. I have had advanced students which wanted to sew their own wedding dresses. I trained a professional seamstress with haute couture sewing techniques.*
