

COMPANY PROFILE

Eire Constructions is a civil construction company specialising in road and utility construction, subdivisions and land development.

We are experts in the construction of water, sewer and drainage infrastructure - providing a diverse range of high quality and cost effective civil construction services for more than 40 years.

We are a privately owned Australian company, based in Port Macquarie, operating primarily across New South Wales but also in Queensland and Victoria.

We have a workforce of 80 experienced employees, a large fleet of the latest plant items and equipment, and a strong network of trusted sub-contractors and suppliers.

Our people are our greatest strength. The entire team is committed to working collaboratively with clients and communities to achieve the best outcomes.

A commitment to health, safety, the environment and quality control is ingrained in our culture. We are accredited, qualified and experienced - dedicated to continuous improvement and staying at the forefront of the rapidly evolving construction industry.

When you partner with Eire Constructions you are choosing quality civil infrastructure solutions. Our end-to-end services provide value for money at every stage - ***from project planning to handover.***

CAPABILITIES

Civil construction services

- Road construction – foundation to wearing course, drainage, traffic management, road furniture and landscaping
- Subdivision development – earthworks, road and utilities installation
- Utilities construction – water, sewer, power and telecommunications infrastructure
- Pipelines – installation of a wide range of sizes and types from suburban streets to green field sites
- Pumping stations – from refurbishments to brand new installations
- Sewerage treatment plants – from new constructions and major augmentations to minor refurbishments
- Drainage – sub-surface drainage, pipelines to multi-cell units
- Plant Hire - we run a wide range of the latest technology, well maintained plant and equipment, coupled with competent operators to ensure project success
- Heavy Haulage and Transport – our transport division can mobilise any piece of earthmoving equipment at short notice to respond rapidly to our clients' civil projects or plant hire needs

WHY WORK WITH EIRE?

Our experience and expertise is diverse

From complex, comprehensive large-scale projects to small projects requiring a rapid response, Eire's adaptability ensures we meet our client's needs. We have successfully delivered a wide array of civil construction projects for government, semi-government and private clients across NSW, Queensland and Victoria. We are proud of our 40 year history and we are focused on providing high quality and cost effective construction services into the future.

Your construction partner

We have a reputation for getting the job done on time and to budget. We work collaboratively with our clients, suppliers and sub-contractors to deliver successful outcomes. We build strong partnerships with our clients based on open communication and cooperation at every stage.

Committed to continuous improvement

Our business is flexible and adaptable to meet the demands and complexities of the construction industry. We integrate emerging technology into our business, such as real time reporting direct from the construction site. Innovation is always at the forefront of our approach. If there is a better, more cost effective way to do something, we'll find it.

Our people make the difference

Our experienced and qualified people are our greatest asset and provide our greatest strength. We have a strong workforce of employees and a network of reliable sub-contractors and suppliers to get the job done. Our people are highly trained, competent, committed and adhere to our values of integrity, cooperation, quality, safety and environmental leadership.

Building strong communities

We construct essential civil infrastructure to create thriving communities. We work closely with the communities we service to ensure the best outcomes for all stakeholders. We make a positive contribution to people and places, wherever our work takes us.

Serious about safety

We work hard to ensure the safety and welfare of our employees, subcontractors and everyone who works with us. Eire is committed to building a safety culture that promotes and aims to deliver a 'Zero Harm' workplace. We understand that production runs parallel with safety and endorse the ideals of Safe Efficiency, and satisfy the legal requirements of the WHS Act and Regulation.

Preserving the environment

By reducing waste and improving processes we ensure better outcomes for the environment and for our clients. We work to minimise our environmental impacts, in particular to prevent pollution. Eire applies the principals of reduce, reuse and recycle wherever possible. We actively apply sustainable work practices that minimise our environmental footprint and preserve the environment for future generations.

Qualified and accredited

We maintain internationally recognised accreditation through our Quality Management Systems and Environmental Management Systems, and a nationally accredited WHS Management System. We are members of the Master Builders Association and preferred supplier to major water authorities and numerous local government organisations. We follow best practice business principles for procurement and comply with relevant state government procurement guidelines for the construction industry
