WHY USE RTS CIVIL

We listen and work with you to achieve the best result.

- We will guide you through council and state planning guidelines and policies.
- We provide you with practical and cost effective solutions that add value to your project.
- We explain things in easy-to-understand terms, not engineering jargon!
- Our chartered engineers have over a decade of professional experience in this industry alone.
- Our chartered engineers are experienced and familiar with all Sydney Council's, Gold Coast City Council and many other surrounding council areas.

Customer Feedback

“It is comforting to know I am working with people that understanding what needs to be done...!”

•

“Thank you for all your help! I appreciate you looking out for me.”

•

“I have been working as an architect for many years and the quality of your plans are top notch and second to none...”

•

“I will continue to use your professional services.”
