

## ESTIMATING SERVICE AUSTRALIA

— SAVING YOUR TIME AND MONEY —

### Trade Estimating:

- Bricklaying
- Cabinet making
- Concreting
- Formwork
- Painting
- Tiling
- Earth works and civil
- Plastering
- Roof carpentry
- Roof plumbing
- Electrical
- Plumbing and hydraulics
- Carpentry

### Building Estimating:

We also undertake complete take offs and comprehensive reports for builders from conceptual cost estimates, bid estimates, project cost management, material take-offs, material field audits, software consulting, and expert witness representation. From residential, commercial, industrial through to mining oil and gas we can help. Our team consists of engineers, quantity surveyors and most importantly tradies as they know what goes on firsthand.

#### What makes us different:

We can use your trade base, send out for quotations saving you time and money. We can also use our database of trades and suppliers if you wish. All our reports are yours as we pride ourselves in helping others achieve the goals they are looking for.

#### Custom quotes:

If you have a quote template we can input our data into it, again saving you time and formatting issues. From complete tender submissions through to one off quotes we are here to help.

**To ensure the profitability of every project and to win more work, you must build estimates with more precision and speed than ever before. Estimating Service Australia can do all the heavy lifting for you!**

**Sick of spending countless hours reading plans and estimating projects?  
We certainly understand.**

**Estimating Service Australia  
can help you have some spare time to relax.**

That is why we started our company; our mission is to reduce the hassle of tradies losing their nights and weekends when they should be able to have some fun.

There are too many people out there that do not understand the amount of work that tradies do, the countless nights, working 40 hours week (that would be nice) then having to get all the paperwork 100% to stop arguments.
