20/6/23

To Whom it may concern,

We write this letter of recommendation for G & C Building Pty Ltd for work completed in 2023 involving the addition of a fourth bedroom to our home and the renovation of an existing bedroom. Even though this could have been viewed as a relatively small job, the attention that we received and the quality of the workmanship from start to finish was of the highest quality and is why we have no hesitation in recommending Guy and his team at G & C Building Pty Ltd.

From our first meeting with Guy, we were struck by his thorough knowledge of building practices, his solid understanding of the various council regulations and his pragmatic approach to documenting and managing projects. We immediately felt at ease with his genuine interest in our project and his attention to detail which became a hallmark throughout the project. Written communication was clear and concise throughout the process and the quote and any subsequent changes were thoroughly documented and actioned. Guy chose and managed sub-contractors very well and always made sure we were well informed of who was coming and when they were expected. The timeframes outlined from the outset of the project were realistic and enabled the job to be completed in a timely manner.

A particular area of note for us were the core tradesmen employed by Guy that completed much of the building work. They upheld the most professional of standards each and every day worked at our property. We were so impressed with the respect they displayed towards both us and our home- always taking great care to ensure our existing floors and paintwork were protected, cleaning up thoroughly every day, disposing of rubbish thoughtfully and working as unobtrusively as possible. It was obvious to us that respect was a core value of the company and that it was an integral expectation upheld by all.

We are so thrilled with the quality of the finished rooms and can't thank Guy and his team enough for their professionalism and effort in bringing our ideas to fruition in such a timely and no fuss way.

Kind regards,

Karen and Derek ██████████
