

Short Courses

Information and Communication Technology (ICT) in Education

Relevant, future focused and collaborative training.

Workshops

What makes our workshops unique?

Specialising in Information and Communication Technology (ICT) integration, ICTE Solutions Australia is the only independent professional development service provider to schools in south-east and south-west Queensland.

Our customised and memorable presentations offer participants practical and immediately actionable suggestions on topics that are relevant and future focused.

Each one hour session comes with additional support information that participants can take away with them back to their place of work for further reference and assistance. All participants will receive a Certificate of Participation.

For your convenience, we come to you at a time and place best suited to your needs such as having an after-school session in one of your facilitated rooms.

All workshops cater to the needs of both Primary and Secondary education from Foundation Year through to Year 10.

Current workshops include the following.

Australian Curriculum (ICT Capability) Workshops

Synopsis: ICT capability is one of the 21st century skills embedded in the National Curriculum. The curriculum website (www.australiancurriculum.edu.au) best describes this as follows:

"ICT capability supports and enhances student learning across all areas of the curriculum. Students develop and apply ICT knowledge, skills and appropriate social and ethical protocols and practices to investigate, create and communicate, as well as developing their ability to manage and operate ICT to meet their learning needs."

- Australian Curriculum

Develop ICT capability in your curriculum (F-10)

I will show you how you can confidently maximise student progression in the national curriculum by constructing meaningful tasks and by laying the foundations for it in early schooling.

By attending this workshop, you will be able to:

- ♦ Structure activities effectively;
- ♦ Identify student progress;
- ♦ Increase productivity;
- ♦ Determine attainment;
- ♦ And lay early foundations.

Customised workshops

Our professional development workshops can be customised to meet your school's needs.

We also offer follow up sessions where your teachers can refresh and fine tune what they have learned.

Request a Quote

Pricing: \$70 per person for every one hour workshop.

Grow ICT capability in the Primary classroom

I will show you how a learning ethos for ICT can develop and build on your student's ICT capability as a result of identifying learning needs, self-improvement and past reflection.

By attending this workshop, you will be able to:

- ♦ Plan for ICT capability ;
- ♦ Plan for continuity in ICT;
- ♦ Organise ICT in the classroom;
- ♦ Structure learning;
- ♦ Exploit generic software;
- ♦ Assess ICT capability;
- ♦ And identify progress.

ICT Integration workshops

Synopsis: When it comes to integrating ICT into school learning, there are big risks involved. This is because when the technology is not used correctly, student learning can be diminished. It is because of these risks that teachers are not likely to start the process of integrating ICT into their curriculums unless they are supported through a professional development process.

Integrate technology in your classroom

I will show you a way to solve student learning problems with less risk and with greater success by providing the right conditions to implement your strategy.

By attending this workshop, you will be able to:

- ♦ Analyse teaching and learning needs;
- ♦ Decide on objectives and assessments;
- ♦ Design integration strategies;
- ♦ Design transformed learning environments;
- ♦ Analyse results;
- ♦ And gather ideas.

Improve primary learning with ICT

I will show you a way to exploit facilities so that it raises the standard of production, targets learning and helps identify learning needs by having a clear understanding of the role of ICT.

By attending this workshop, you will be able to:

- ♦ Plan the incorporation of ICT activities into the curriculum;
- ♦ Cope with ICT in the classroom;
- ♦ Refine and improve work with ICT;
- ♦ Maximise potential;
- ♦ And identify opportunities for assessment.

ICTE Solutions Australia

Today we live in a ICT-dominated world where ICT permeates our lifestyle, social life and work life. Our goal is to ensure that our students can contribute and benefit from society by being proficient users of ICT.

We help teachers understand the benefits of using ICT by providing them with the skills and knowledge to effectively and efficiently use ICT in their teaching and learning. Through our research into ICT pedagogies and ICT in education we ensure that these skills and knowledge are up-to-date.

Our professional development opportunities supports and helps teachers to learn about ICT in education and how to integrate ICT into their curriculum so that it benefits both teacher and student.

Why attend our presentations?

- Affordable and cost-effective;
- Obtain a lot information in a short amount of time;
- Wide range of topics;
- Can be tailored to suit your needs and at a time convenient time to you;
- Practical and immediately actionable suggestions;
- Memorable.
