
Real Estate Marketing Australia

/ Photography that sells

/ 24 Hour turnaround

/ Booking flexibility

/ Great customer service

About us

We specialise in Real Estate

We provide premium quality photography and other marketing materials to both our residential and commercial real estate clients across Sydney.

Everything we do, from the service to the final product is designed around generating more interest in your properties and **driving more business your way.**

In this fast paced industry we understand time is precious and we are extremely flexible to give you appointments when you need them, often even same day.

We guarantee an efficient processing enabling us to deliver images to our clients faster, with a next day turn around time meaning you can get your campaign up and going faster than ever.

Our services

Residential Photography

Commercial Photography

3

We select the best angles and style the shots to ensure your residential or commercial property is presented in its best light, capturing the image in multiple exposures to create an eye-catching final product.

Our services

Lifestyle Photography

A suburbs mood, movement and culture can be reflected in a single frame and become an integral selling point for your property.

Real Estate Video

James Hardingham / Managing Director & Photographer

I started in real estate photography and marketing over ten years ago and love the industry! I have a few things I stand by; a great product, great service and integrity in everything we do. There are no shortcuts in my business. Sydney is a beautiful city and I truly believe I am doing my part to help showcase it!

Paula Hamada / Office Manager

I'm proud to be part of a company that is always striving to deliver a professional product and amazing customer service. Having worked for companies like Sony and Intercontinental Hotel Group, I have learned that an eye for detail, great organisational skills and customer service are key to our success.

David Rouse / Development Manager & Photographer

With over 16 years in customer service and client management under my belt, our vision of developing REMA into a market leader is quickly becoming a reality.

Adrian Tezjan / Videographer

I joined REMA because I saw an opportunity to work on a wide variety of projects over several disciplines. I have previously worked on films for Channel 7, MTV, Volkswagen and The Red Room Company.

Testimonial

Don't just take our word for it...

7

//

We met James and his team around 5 years ago prior to opening our Starr Partners Ryde office. Extremely impressed with the professionalism with clients and attention to detail with photos and floor plans, we made the commercial decision to bring them on full time as our Professional Photographers.

In an industry flooded with cheaper options, we decided to invest in a slightly higher investment, rather than make excuses for poor quality work throughout the campaign. We believe a property only gets one first impression.

James and his team have earned the right to be referred to our Corporate partners and I would recommend anyone to profit from their knowledge like we have.
