

Is your Workplace **Compliant?**

Tight laws surround the requirements for **testing and tagging** in the Workplace. Are you exercising your *Duty of Care* under the Occupational Health and Safety Act 1984?

www.dracs-tags.com.au

SERVICES AVAILABLE

- ✓ Results held securely on our database for least at 7 years
- ✓ Provide re-testing notification for assets on re-testing interval

Why use DRaCS

DRaCS is a locally owned business in Port Kennedy area established in 1994.

We have over 30 years' experience in the Construction and Building Industries.

All Electrical Inspections and Testing services provided by DRaCS Tags are fully compliant with **AS/NZS 3760:2003** in-service safety inspection and testing of electrical equipment standard. We meet the requirements to perform a "leakage" test on all relevant equipment including **415v 3 Phase** appliances.

We can also Inspect and tag your Rigging Lifting Gear and Work at Height Harnesses and Lanyards.

This service includes visual inspection of components of the equipment and confirmation that all latches and securing devices operate correctly.

We provide this Inspection service for Companies that use this equipment but may not have the appropriate qualifications for inspecting it.

All work is carried out with minimal disruption although equipment will need to be temporarily removed from service to be tested.

We will contact you 7 days in advance when a Test and Tag is due.
