[Hire Intelligence](#) is Australia's leader in computer rentals. We offer short-term computer rental and have locations across Australia and the world. Since our commencement in 1992, we have had the clear vision to provide Australians with the latest brands, the most competitive prices and a team of professionals that provide services that are second-to-none.

At Hire Intelligence, we have many short term rental products available. Our products include:

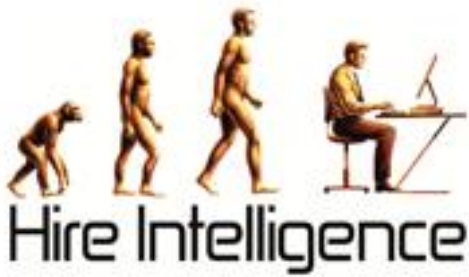

- Laptops
- Audio Systems
- Monitors and Touch Screens
- Photocopiers
- Printers & Scanners
- Projectors & Presentation Aids
- Apple Products
- Hardware & AV Accessories
- And much, much more.

We are committed to providing you with the very best brand names and latest technology at the best prices. Whether you require audio visual hire and AV rentals for an impending meeting or large corporate event, we have all the equipment you will need to make an excellent presentation.

At Hire Intelligence, we stock the best brands including, Apple, Samsung, IBM, HP, Canon, Panasonic, LG and Polycom. We are constantly reviewing and updating our stock list so that we consistently supply you with the latest equipment and technology.

There are many benefits to hiring computer equipment instead of buying. One of the main reasons is the cost-effectiveness. You essentially save money by not investing heavily in tech equipment. When renting, you have the chance to try the equipment before you jump into purchasing it. Also, you receive the tax benefits of renting.
