PRACTICAL APPLICATION OF ARR 2016

CONFERENCE SERIES (AUSTRALIAN RAINFALL & RUNOFF 2016)

REGISTRATION FOR THIS
CONFERENCE SERIES IS NOW OPEN

This one-day conference will present attendees with a step by step process to apply the updated requirements from ARR 2016 for both rural and urban catchments.

The course will cover multiple software to ensure attendees have options to generate the output for inclusion in a flood study or stormwater management plan. Example programs to be discussed include:

- XPRAFTS
- XPSTORM/SWMM
- WBNM
- 12d

Additionally, content will include how to assess a stormwater management plan from a Council perspective, which will allow attendees to be aware of any new expectations.

HOW TO REGISTER

Visit the *Urban Environmental Solutions (Conferences)* website to register your attendance.

Select your preferred location and Register. Note: As more locations are added to the Conference Series our Event Coordinator will be in contact with you if a more preferable locality to you is confirmed.

The cost of Registration per person is \$450.00.

Visit www.urbanenvironmentalsolutions.com.au

Mr Gavin Fields is Director of Urban Environmental Solutions and Senior Environmental Engineer who has a range of experience within Australia and abroad.

Gavin has 14 years experience as a consulting engineer and is a recognised expert in the area of stormwater drainage design and floodplain management.

We note that the events are being presented by Gavin Fields, from Urban Environmental Solutions, and sponsored by Rocla.

Rocla have identified this conference series as an opportunity to assist the greater stormwater industry by providing practical methods that will help designers and engineers to size infrastructure in accordance with the current guidelines.

CONFERENCE INCLUSIONS

The cost of Registration includes the following for each attendee:

- Morning Tea & Afternoon Tea
- Lunch, and
- Conference Handbook
