

About Us

[Tape Ark](#) is innovating tape and data management, while preserving and future-proofing your ageing digital assets. We are one of the first companies to provide a solution that eliminates the need for physical tape storage by transferring legacy tape-based data to the cloud, allowing the data to be accessed in way which was previously impossible. We're able to provide the knowledge and expertise to make obsolete datasets accessible for current commercial requirements and to ensure continued access to these datasets into the future. Our innovative solutions are powerful, cost effective and forward thinking.

Services

At Tape Ark, we provide a comprehensive range of effective cloud and tape solutions to make data accessibility seamless. The full scope of our tape and cloud services include:

- Tape migration to the cloud
- Tape & data cloud migration
- Industry specific solutions
- Tape media audit
- Archive box audit
- Data on call
- Search and index
- Reconcile and destroy
- Restore and conversion
- eDiscovery
- Email Recovery
- Data Destruction
