

ClearShield

STAINLESS STEEL SECURITY

About Us

Shield your home, not your view with [ClearShield's](#) premium stainless steel security screen doors and window screens. Exceeding the Australian standard by 10x, our stainless steel security doors and screens provide optimum visibility allowing you to enjoy the view and breeze by leaving your doors and windows open without compromising security.

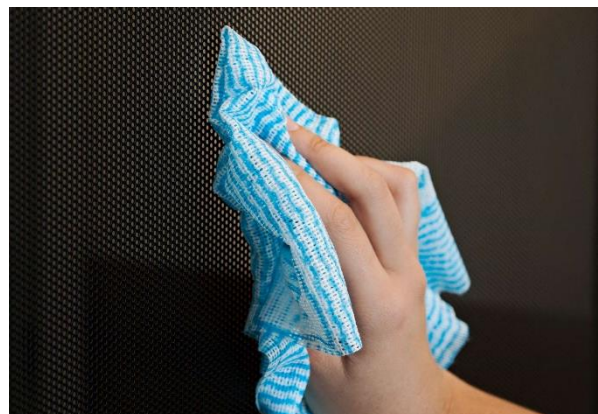

We're committed to ensuring superior performance, with our advanced technology receiving multiple design awards, including the 2013 Good Design Award for our Cyclone Debris screen product, the 2014 prestigious Good Design Selection Award for our security screen door and screen range and the 2015 BA100 Winner of the Australian Business Award for Product Innovation.

Products & Services

At ClearShield, we offer a superior range of security screen products for both commercial and domestic use. Designed and manufactured using a single durable perforated stainless steel sheet, our security products hold up to the highest levels of performance testing. Backed by both in-house and independent testing, our product range is designed to withstand knife attacks and repetitive impact. The perforated design of ClearShield stainless steel doors and screens make them easy to clean and maintain compared to traditional flyscreen products.

Our security product range includes:

- Security doors
- Window security screens
- Pool fencing
- Emergency exit screens
- Bushfire screens
- Fire screens
- Cyclone screens
- ClearShield eXtreme screens and doors
