## PREMOVE ASSIST

### Expert help to get you well prepared for your move, before the 1800 Move It removalists arrive.

Our packing ladies have years of experience and have the “woman’s touch” to ensure all of your personal belongings are cared for in your pack. Why not take up the unpack service (even just for your kitchen) and you will be amazed at how organised all your items will be in your new home.

It certainly reduces the stress of the enormous task of packing up or unpacking your whole home, which can often make you feel like it will never be finished. Whilst the actual moving day is stressful for most it is the lead up time to pack and the unpacking for days afterwards that really makes it such a large task. The packing ladies are such lovely, friendly people and nothing is too much to ask.

The unpacking service is generally started and completed the day before the move with the ladies arriving at 9am, and leaving you minus the headache and stress of trying to fit it in around your already busy lives. Whilst most people unpack themselves, we can also have the ladies complete an unpack service the afternoon of the move, so that you can actually use a functioning kitchen that night! Alternatively they can come the following day and perform a full house unpack. To have that first night in your new home with 90% of your items in their place is just invaluable. No more weeks of unpacking box by box from the pile in the garage!

### How we help:

- **Kitchen and laundry** – clean and make whitegoods and appliances ready for transit. Food sorted into what to take or discard.
- **Priority moving carton** – put aside valuable items like remote controls, shelf supports, keys and furniture assembly instructions.
- **Priority moving carton** – put aside valuable items like remote controls, shelf supports, keys and furniture assembly instructions.
- **Separate items not to be packed** – travel documents, important work and personal files, jewellery, mobile phones, electronic devices, cables and power adapters, medicines and prescriptions.
- **First night survival kit** – an essentials kit with kitchen items, toiletries, bed linen, nightwear, clothing, children’s favourite toys and foods, pet needs, tea/coffee, cups, bowls and cutlery, toaster and kettle.
- **Declutter** – independent, experienced advice to help you sort and identify what you don’t need to take with you for your move. Giveaways and excess items organised for family, friends and charities.

### Benefits to you:

- Save time, reduce the stress and effort of your move Our ladies are friendly and mature with plenty of moving experience. They will work quickly and efficiently to get everything ready to move before your removal crews arrive. A Pre Move Assist can save you weeks of preparation time and minimise the disruption of any size move.
- Focus on the important things With the sorting and organising being done for you, you can focus on other priorities like family and essential services for your home.
- An organised move is a quicker, better move If you are totally ready when your removalists arrive to pack/move your belongings, the move will run more efficiently.
- Help for as long as you need Our Pre Move Assist Service is charged at an affordable hourly rate, with a minimum of one lady for four hours, extendable at any time. Choose as much help getting prepared for your move as required.

Save time and reduce the stress of your move
