- "We are really happy with Adrian's service, he was polite and friendly. He did a great job with the ceiling fans, and was happy to do something else on the day when I asked. Great rates too. I would highly recommend Adrian to anyone."

- "Adrian was very polite and hardworking, He did not just act on my instructions to do 'stuff', but suggested and pointed out any issues with it. I loved the way he went about the entire job. I have got his details pinned in my list of tradies. Definitely recommended!"

- "Adrian and Ben from FIX Electrical Contractors were excellent. Their quote was very fair and they were able to do the job almost immediately. We had a slight mix up with the time to do the job, but they were accommodating of this and the job was rescheduled and done promptly and professionally by Ben. I have another very big electrical job I need doing within the next month and will be using these guys without reservation. I would highly recommend FIX Electrical Contractors to anyone. Scott."
