

Complete Workplace Bullying Program

Bullying can happen in any workplace. It can impact on the health and safety of workers, and costs associated with lost productivity, low moral, high staff turnover and absenteeism can cripple an organisation. On top of that, governing Authorities such as WorkSafe Victoria and the Fair Trade Commission could come knocking on your door asking you what you have done to step in and address workplace bullying.

Many employers are left asking:

“what do I need to do about workplace bullying?”

Safety Solved has you covered by providing your company with a complete program to address workplace bullying containing detailed policies, procedures, reporting and investigation forms and 4 hours of on-site training for employees and supervisors.

For a limited time, Safety Solved is offering this complete workplace bullying program for **\$1,000** (plus GST). The program includes the following:

- ✓ 4 hours of on-site training provided by our qualified consultants. This includes a 2 hour workshop for employees and supervisors (maximum 20 people) plus a **bonus 2 hour** workshop for supervisors on their role in recognising, reporting and investigating workplace bullying complaints. All attendees will be provided with a certificate of attendance.
- ✓ Detailed policies, procedures and reporting and investigation forms, provided in hard and soft copy (microsoft word) so you can insert your own logo, consult with your workers and make the documents your own.
- ✓ Workplace bullying posters for display in your workplace.
- ✓ Guidance materials from WorkSafe Victoria.

Safety problem? Safety Solved!
