

control. Great when responding to phone calls or other interruptions.

Stainless Steel Wand

applications. With the flip of a switch, you get the power you need for either job.

Micro Filtration Technology

While water filtration captures 99.997% (by weight) of typical household dirt, the Rainbow® is engineered with a HEPA Neutralizer Filtration System to take "clean" to the next level. The HEPA Neutralizer Filtration System ensures the Rainbow® provides nearly 100% clean air.

Water World

Inside this water basin, the churning water works to filter the dirt from the air and return water-washed air into your home environment.

The Powerful Hurricane® Motor

Utilizing new switched-reluctance technology, the Rainbow® provides more power for the toughest cleaning jobs. The "brushless" motor boasts impressive power and flexibility. The Hurricane Motor's durability is unrivaled.
