

Phoenix

protective & marine
coating specialists

Phoenix is a Cairns based company specialising in providing superior blasting and coating services to the construction, engineering, manufacturing, marine, mining and oil and gas industries across North Queensland.

With over 40 years combined experience, Phoenix is a leader in the surface preparation and protective coatings industry and provides specialist services for the preparation, restoration & treatment of any surface.

Employing industry professional tradespersons and NACE qualified inspectors, Phoenix install quality protective coating systems in three key areas; Protective Coatings, Marine Finishings and Mobile Services.

Combine a wealth of experience and highly qualified staff with a brand-new purpose built 2460m² blasting and painting facility and Phoenix can guarantee all work is delivered to the highest possible standard.

If you are looking to work with an expert in asset maintenance that adheres to the highest standard of excellence, Phoenix is your first choice.
