Fortress Pool Inspections 0413 554 318

This checklist is for your personal use and is in no way a substitute for an Inspection by a licenced Pool Safety inspector.

Pool Inspections are needed for anyone selling or renting a house.

Gate

- 1. Does the gate open away from the pool area?
- 2. Is the gate latch 1500mm from the ground
- 3. Does the gate self-close from any position including resting on the gate latch
- 4. Is there a maximum of 10mm between the gate and gate post
- 5. Are the hinges 900mm apart or include non-climbable apparatus
- 6. Is gap between bottom of gate and ground level less than 100mm

Fence

- 1. Are all fence panels secure and no loose fittings
- 2. Is gap between bottom of gate and ground level less than 100mm
- 3. Is gap between bottom of pool fence and solid ground level less than 100mm
- 4. Is there any gap greater than 100mm in the fence zone (vertical)
- 5. Is the fence 1200mm high
- 6. With a timber fence is there greater than 900mm between the horizontal fence rails
- 7. Is there any door access from the house to the pool area
- 8. Have windows to the pool area security screens that are screwed or riveted in position
- 9. When squeezing vertical bars together on the fence panels is there less than 100mm gap

NCZ (Non Climbable Zone)

- 1. Are tree's in the NCZ area trimmed so as children cannot climb Them
- 2. Is there a 300mm clear zone on the inside of the Pool Fence
- 3. Are climbable items removed from near the fence
- 4. Where a pool fence intersects another fence is there an additional 900mm clear zone
- 5. Is there a CPR sign on display within visual distance from the pool area? (Must show 2 Breaths to 30 Compressions)
