

WHO WE ARE

RAAMP is a fully Australian owned photo studio under the leadership of Lex Prior.

Lex has had a full role in Australiana style photos and has always been able to capture that very unique image which represents the real Australia. His services have been well received and Lex's high quality images have been used in many tourist, commercial, retail and domestic environments.

Lex finds the Canon range of photographic equipment has the capability to capture the real Australia, being of the quality required to create that unique edge and style that's generally missing when it comes to the true Australian image.

Lex's photos are ideal décor options and every room in your motel can feature a different photo to help capture the mood of Australia. In an office or medical waiting room Australiana images assist in creating ambience and in your advertising agency's media campaigns these images will sparkle whilst reflecting the essence of your client's needs.

In this diverse and exciting environment RAAMP will always have available the best photograph imaginable and one that fulfils all your desired needs and requirements.

WHAT WE DO

Dedicated to providing quality images to tourists, advertising agencies and commercial operators such as hotels, motels, offices and retailers
Meeting and exceeding all our clients' needs you can browse our galleries of high quality images for affordable Australiana prints on quality paper and/or canvas prints ready to hang on any residential or commercial premise. Canvas prints are supplied rolled and ready to be stretched over your frame.

RAAMP will also provide high res images for advertising requirements including Television production, brochure designs and print.

You can view our extensive gallery, make your choice and for your convenience you can secure your purchase with the convenience of PayPal.

All our prints are supplied with free postage in Australia.
