

Beware of Filled Jewellery

Please take heed and
BEWARE OF “FILLED” JEWELLERY!

Some jewellers sell “Gold-filled”, “Silver-filled” or “Copper-filled” jewellery. This means the jewellery item is generally made of a cheaper metal such as brass or copper and is only covered with a thin skin of gold or silver. It contains only a miniscule amount of gold.

Adelaide Exchange does not sell filled jewellery!

You can be confident that every item you purchase from Adelaide Exchange is solid gold or silver, unless specifically otherwise stated. We pride ourselves on our transparent honesty and integrity.

Adelaide Exchange... where you always get more.
