ONCE YOU USE A JEMSON LECTERN, YOU'LL NEVER SETTLE FOR ANYTHING LESS.

You can tell right away these lecterns are a family. Same sturdy build, same stylish lines, same Jemson quality. Each sharing the same smart considerations that set them apart from anything else.

360° Accessibility: Full access to all sides of the top rail equipment rack. Quick release of the modesty panel grants access to the front racks. Removable base and leg covers provide access to internal cables. Knockouts in the base can be punched out to pass cables through the base or up through the floor.

Storage: MML-1 is the lightest, most compact lectern in this range offering 8 RUs of rack space. Move up the line to MML-2

and MML-3 and you'll discover 16 RUs as standard with an additional 24 RUs on offer with the optional Base Rack Assembly.

Security: Equipped with a single key lock-up solution in addition to a security panel to prevent theft of rear mounted equipment.

Ventilation: Ample ventilation eliminates the need for cooling fans.

Electronic height adjustment: Provides 290mm of vertical range at the push of a button.

Shipping: Shipped fully assembled, ready to be integrated with all of your equipment.

THE POSSIBILITIES EXTEND BEYOND YOUR SIMPLE SPEAKING LECTERN.

The difference between Jemson and other lectern manufacturers is our ability to work with our clients and their custom requests. Benefit from innovative solutions combining unique ideas, stunning designs and supreme functionality.

Configure to your needs: Discover the range of options available to you, enhancing such lectern aspects as storage, security, portability and individuality.

View on YouTube

Add your identity: Choose the colour and finish for your bench top and modesty panel. Print your name and logo directly onto the modesty panel to compliment your presentation environment.

Lockable castor wheels, allowing for effortless manoeuvrability and secure positioning during use.
**Cup holders,** conveniently located within easy reach. Avoid spills on AV equipment.

**Slide out metal tray,** for easy access to audio-visual equipment.

Quick release modesty panel, drops down for convenient access to front rail mounting racks.
Slide out shelves, to expand your work surface.

Bench top cutouts, at time of manufacture saves you cutting holes in the bench top to install your equipment.

Base Rack Assembly, allows you to increase the standard 16 RU capacity to a further 24 RU for MML-2 and MML-3. That's a total of 40 RU providing generous storage for all your equipment. Featuring lockable access from front and back with natural convection cooling design: no need for an additional fan.

Base cover plate, for easy access to cables.
