*Domestic & Commercial

WHY CHOOSE ELITE LIMESTONE?

Elite Limestone is a leading business in the construction industry specialising in Limestone Retaining & Feature Walls, Excavation, Bobcat Work, Back filling & Compaction.

Our company has grown from strength to strength over the past 6 years, building a great reputation for both quality work & customer service. We have a reliable & competent team & pride ourselves on our professionalism & our teamwork. It is a condition of employment that each team member holds a current Blue Card, a Skid Steer ticket & any relevant equipment tickets.

As we are based in the Perth Hills, we have gained a lot of knowledge & experience regarding building in the hills regions & this has proven to be invaluable in all other areas of our work. We have been building residential & commercial walls for a number of reputable builders & developers. We have been involved in developments all over the metropolitan area from Mandurah to The Vines. We have been at “The Vale” for the past 4 years & have recently completed stages on the highly anticipated Perth to Bunbury Highway.

If you would like to know more about Elite Limestone or would be interested in using our services, please feel free to contact us on the above numbers, by email or via our website which will be coming soon. A portfolio of our work is available upon your request.
