MENUBOARD PRO

swift Touch

www.nextco.com.au

Digital Menu Boards give you the power to constantly update and improve the content of your menu screens.

If you are tracking the available serves of any items then the menu board will notify you when it has sold out.

Menu board layout and design can be totally controlled by the Venue and can include video, graphics, backgrounds and flashing colours along with the menu of food items.

Add new daily specials and promotions in one place for the POS and Digital Menus

Changing prices at the POS update the digital Menu boards automatically

Create schedules to match your kitchen hours and display advertising outside those times.

Display attractive multimedia graphics including anything that can be displayed in a Web browser.

Eliminate printing costs and mistakes

Instantly change menus with updates to the POS and Menu Boards in less than a minute

Digital Menuboards for your SwiftPOS System

Menu boards are the first thing a customer sees when they want to place an order in your venue. With the integrated product photos you are able to show your customers what they are about to order from your menu.

Customers Buy what they see!

Digital Menu Boards allow you to display your food Menu's and pricing directly linked to the SwiftPOS Touch database. Make sure your customers don't get "Menu Bored!!"

Change your products and prices automatically!
