

choose green plumbing and watch the savings flow

home to garden

save money. save water.  
save the environment.

tap water isn't free.  
so why let it—  
and your money—  
go down the drain?

as well as expert  
general plumbing,  
home to garden offers  
a comprehensive green  
plumbing service to  
help you preserve water,  
and dollars.

## home to garden. sustainable plumbing solutions

Finding a good plumber is tricky. Finding a green one even trickier.

But in Home To Garden, you've found both.

Home To Garden is serious about sustainable plumbing practices. We also know that the best green solutions are the ones that save you money.

With one obligation-free consultation, find out how we can help you reuse waste water, harvest rainwater, and minimise the use of water you pay for, in the home and in the garden. In addition we can also quote on all your general plumbing requirements.

### Green Plumbing
