

# General Practice

## Overview

At Globe Medical we provide a comprehensive service in General Practice. Our highly experienced general practitioners tailor their approach to meet the individual needs of the patient.

Our aim is to enhance your health, by helping you to overcome illness, manage ongoing conditions and prevent illness and lifestyle disease.

Owing to our CBD location and diverse demographic and cultural patient base, our waiting room is quite a vibrant and pleasant place to be, even if you usually find visiting the doctor a chore!

# Student Health

## Overview

We cater to the health care needs of students. Our expert team of male and female doctors is here to help you, all year round. So whether you are an international student or a local, we are here to provide you with the support you need.

## International Students

We know how Overseas Student Health Cover (OSHC) works and if the need arises, we will coordinate with medical specialists to minimise any out of pocket expenses you could incur. We have access to interpreters, should one be required. Our team understands the challenges associated with adjusting to a new environment while studying, working and coping with the pressures of living away from home. This is made all the more difficult if you become unwell or have an ongoing health condition. Our doctors take the time to understand your situation and to help resolve or manage your health issues.

## Australian Students

We appreciate that studying and working is difficult and often stressful. Many of our receptionists are in the same predicament, and our doctors once were, during their many years of study. We combine convenience and affordability, providing you with access to highly experienced general practitioners. Our doctors maintain strong links with local specialists and allied health professionals, to ensure you are provided with the highest level of care.

# Corporate Health

## Overview

We provide Corporate Health solutions to organisations with offices in the CBD and across metropolitan Adelaide. Our clients come from a range sectors, including resources, energy, finance, professional services and education, just to name a few. We are here to be your business' long-term health care partner, by providing a comprehensive and personalised solution that meets the requirements of your local offices and their respective employees.
