

## SOLAR POWER

- \* **Do you know you can loose up to 30% efficiency with a dirty solar system.**
- \* A 2kw system can produce 8.4Kwh of power daily , the average house uses about 18kwh of power.
- \* A dirty solar system looses up to 600wh of power daily .
- \* Over a year that's over 200Kwh.
- \* That's big dollars lost due to dirty solar panels.
- \* Do you like getting on your roof to clean your soar panels, with a hose, why risk it?
