

# multi age classes

MONTESSORI PRESCHOOL

2 - 6 years

Dr Maria Montessori (1870-1952) believed that all children want to learn. She designed a rich & intelligent environment for the young child, balancing structure and freedom.

Children attend in an indoor/outdoor environment in multi-age groups, inspiring and nurturing each other.

There are six learning areas:

Practical Life                      Sensorial Material  
Language                              Mathematical Material  
Cultural                                Creative Arts

Curriculum also includes Music, Cooking, Language Study (German & French) and Gardening.

Children are taught individually, and progress with the Montessori equipment at their own pace. They learn to read and write, and leave at a Grade 1 level in English & Mathematics (refer: Victorian Curriculum and Assessment Authority).

What do you wish for your child?

- independence                      - self-discipline                      - resilience
- patience                              - integrity                              - empathy

Children work to achieve the above attributes, and reach their fullest and happiest potential.

There is no child who will not benefit from a Montessori education.

## classes

MOMENTUM MONTESSORI  
1 Inglewood Crescent  
Rosebud VIC 3939

### WEEKDAYS

9.00am - 3.00pm

Children leave well ahead in social, academic and practical skills, curious about the world around them.

For inquiries and enrolment call:

0437 893 043

AGE	SUGGESTED CLASS
