## P902976 DIESEL FUEL KIT

For Diesel Platforms with Flow Rates up to 114LPH

### FEATURES & BENEFITS:

- Ideal for many 4WD applications
- Includes additional filter element – keep one in the vehicle spare!
- Supports fuel flow range up to 30 gph / 114 lph
- Water Separating Filter and Drain Bowl

Contaminated fuel can lead to vehicle downtime and costly repairs, especially to expensive common rail systems and components.

Modern engines are increasingly requiring better fuel filtration technology to ensure you are delivering the cleanest fuel to your vehicle's fuel system.

Donaldson's Diesel Fuel Filtration Kit provides additional protection for your vehicle, providing cleaner fuel; keeping you up and running and out of the workshop.
