## Fighter Fish /

Siamese Fighting Fish are wonderfully notorious for their beautiful colours and spectacular fins. Native to Thailand and other neighbouring countries, their wild counterparts are accustomed to slow moving or still waters such as rice paddies and swamps. Since they are such hardy fish they can be kept in smaller bowls, but still need regular water changes with "aged" water. They prefer a neutral pH and a water temperature from 24-30 degrees Celsius. A great pet for even the busiest person!!!
