

KAV Property Inspectors are the leading experts in building and pest inspections.

You may have noticed the KAV Property Inspection signs outside many properties that have been sold or are being sold throughout the Sydney metropolitan area.

Our Vendor inspection services provide two options covering building and timber pest matters. A special bonus offer regarding conveyancing and other inspections is also available.

Option 1

The vendor & proposed purchasers (recipients) contribute to the overall costs. The report must be distributed by KAV only.

Option 2

The vendor covers the costs for the service. The report may be attached to the contract and distributed by the agent, vendor and/or KAV at no fee to the recipient to obtain the report.
