Service

We love feedback!
Customer satisfaction is the number 1 goal of the Electrodry team and to achieve this we would appreciate your feedback. Your feedback can be directed to us through our website at www.electrodry.com.au

Dear Client,

Electrodry is an Australian owned family business with an extensive network of dedicated technicians who are here to assist you in any way possible. We thank you for choosing Electrodry and in the interest of safety advise that:

- The carpet may remain damp for several hours after the completion of the work. This may result in a slip hazard when walking from the carpet to hard floors such as tiles or floor boards.
- We will need to use electrical items and we ask you to be careful not to trip over any cords and keep children away from equipment that may be turned on.
- We may need to place in the laundry or bathroom a bucket that contains a heater and hot water. Please keep any children away from this bucket.

In addition we ask you to advise our technicians of any potential hazards that may exist within the house or grounds prior to commencement of work.

Sincerely
Paul Burchell

Sensitive Choice

Sensitive Choice®

Electrodry is the ONLY professional carpet cleaner in Australia approved by the Sensitive Choice program of the National Asthma Council Australia.

Its range of cleaning services has exclusive approval with:

- Carpet Cleaning
- Upholstery Cleaning
- Leather Cleaning
- Mattress Cleaning
- Drape Cleaning
- Blind Cleaning
- Specialised Stain Removal
- Cool Room Cleaning
- Air Conditioner Cleaning
- Fire and Water Restoration

That means that the Electrodry system has been shown to be carefully developed with the health of people with asthma and allergy in mind. This means you can be confident that by engaging Electrodry to care for your carpets and upholstery, you are also making a good choice for your family's respiratory health.

As well as cleaning your carpets and upholstery, Electrodry has added HealthGuard™ to its cleaning products to attack germs, bacteria and odours and help control dust mites, which are one of the most common triggers for asthma and allergy in Australia.

Healthy Sleep

Why Clean Your Mattress?

We spend over a third of our lives in bed. It is a fact however that no matter how clean your home may be, your mattress will almost always contain bacteria, fungi and dust mites in quantities that are at potentially dangerous levels, all feasting on your dead skin. Dust mites are microscopic in size and feed off the dead skin cells dropped from our bodies.

The Dust Mite Menace

Dust mites are impossible to stop and inhabit even the cleanest of homes. Dust mites excrete nearly twice their body weight each day. Their excrement is found to trigger allergic reactions and health complaints such as: asthma, eczema, headaches and sneezing. They are even thought to contribute to depression and fatigue.

*The stain removal results will vary depending on the extent of the staining and steps previously taken to treat the stain. Stain removal from cotton mattresses will generally be less effective than from synthetic covered mattresses. Only a standard treatment can be performed on a latex mattress.

The Electrodry Healthy Mattress Solution

Electrodry uses its exclusive Healthy Mattress Solution in a 4 stage treatment process that leaves your mattress clean and healthy and keeps attacking the dust mites and harmful bacteria for up to 6 months. The Healthy Mattress Solution includes the application of Restezy™, a lavender infused solution to keep your mattress smelling fresh and help you to get what you need from your mattress – a good night's sleep.

The Deluxe Mattress Solution

Electrodry also offers a Deluxe Healthy Mattress Service involving the decontamination and removal of human stains (such as blood and urine) from the mattress* – a fact well appreciated by families with young children prone to the occasional "accident".

Leather Cleaning

Leather Cleaning Solutions

The look and feel of leather upholstery can do wonders for the appearance and value of your home. As we all know, leather is expensive and hard to maintain but Electrodry has the answer.

Your Electrodry technician can perform a full restoration clean and condition of your leather lounge often bringing it back to new.

Electrodry Leather Care and Maintenance Kit

In cases of mild soiling, a maintenance program may be more appropriate for your lounge suite. In such cases we can supply a leather care and maintenance kit including a leather cleaner, conditioner and protector.

Upholstery & Drapery

Apart from carpet cleaning, Electrodry specialises in upholstery and drapery cleaning. Our qualified technicians can breathe life into your fabrics and furnishings ensuring their value for years to come.

With specialised training and state-of-the-art chemistry, our technicians can often clean fabrics that our opposition can't and remove marks that you thought were there forever.

Please ask your technician for an appraisal and quotation on the cleaning of your upholstery and drapery.

Upholstery & Drapery

only \$39

Spill white wine on your upholstered lounge? Treat with Electro 3 Spot & Stain Remover!

Cleaning for Health

HealthGuard 

Cleaning for Health

Electrodry's mission is to provide safe, effective and environmentally sound solutions to a wide range of indoor bacteriological and fungal health concerns.

HealthGuard in the cleaning process

When you ask us to clean your carpets and upholstery we believe you want us to remove the soils, stains and the nasties that can harm your family. HealthGuard has been added into our cleaning products to attack the germs, bacteria and odours in your carpets and upholstery bringing your carpet and upholstery back to a healthy balance. This service is provided by Electrodry free of charge.

Sanitise with HealthGuard to attack germs

Once we clean with the unique Electrodry Cleaning Systems we can treat your carpet with E-Bac – a HealthGuard based product that keeps attacking the germs and bacteria for up to 6 months and leaves a wonderful fragrance (apple, vanilla or lavender) through the home.

from only \$1
per m²

Protect against stains and bacteria

E-Gard provides fantastic protection against stains from spills like coffee and wine and with the addition of HealthGuard, E-Gard keeps attacking the germs, bacteria and fungi for up to 3 years. E-Gard gives your carpet total protection!

Pet Odour Eliminator

E-Pet, Pet Odour Eliminator has been specially formulated to treat the affected area, neutralise the odour and attack the bacteria. When applied properly this will remove the odour caused by continuous pet visits and deodorise the area with a pleasant fragrance that will disguise the problem and reduce visits to the areas by pets.

\$25
per 400ml

Easy Tile Care

In selected areas

Tile and Grout Cleaning

Dirt trapped in the pores of your tile and grout can cause your surfaces to look dark and dirty as well as harbouring bacteria and can be impossible to remove with traditional cleaning methods.

Electrodry Tile and Grout Cleaning offers an effective no hassle solution that will revitalise your floors (surfaces). The Electrodry cleaning systems will safely remove built up dirt and grime returning your tile and grout surfaces to like-new condition.

We will revive and preserve all tile and grout surfaces including kitchens, foyers, restaurant floors, bathrooms, showers and counter tops.

In selected areas

Mould Cleaning

Do you have unsightly mould growing in your house? How many times have you cleaned these marks off your walls and ceilings only to find them reappear in two weeks time? Mould Cleaning by Electrodry is the answer! With a revolutionary new system, Electrodry WILL remove the mould and guarantee that a completed clean will pass an independent air quality clearance test! Previously, to reach this standard, walls had to be replaced. We can even remove mould from most of your furnishings.

Mould can pose a serious health risk. As mould grows indoors it releases spores into the air, creating potential health risks which may result in: chronic headaches; eyes, nose and throat irritation; sneezing; nausea; fever; vomiting; diarrhoea; chronic fatigue and asthma/respiratory problems.

A leaking roof, broken pipe, flood or just condensation on your windows is enough to allow mould to grow.

If you have seen mould in your home, let our professional technicians make your home healthy again. Call Mould Cleaning by Electrodry now on 1300 724 365.

Ultimate Protection

Ultimate Protection against Stains, Germs and Bacteria with E-Gard

Prevention is better than cure... now with HealthGuard added, E-Gard not only protects your carpets from spills and stains but it also attacks the germs, bacteria and mould in your carpet or upholstery for up to 3 years. Say no to dangerous bacteria such as e-coli, salmonella and staphylococcus. E-Gard gives your carpet and upholstery total protection!

from only \$4 per m²

Superior Protection with E-Gard

E-Gard gives better protection than water-based stain protection chemicals because it coats the entire fibre leaving a superior finish without any odour. E-Gard repels against oil, dirt and grime!

It Resists Soiling

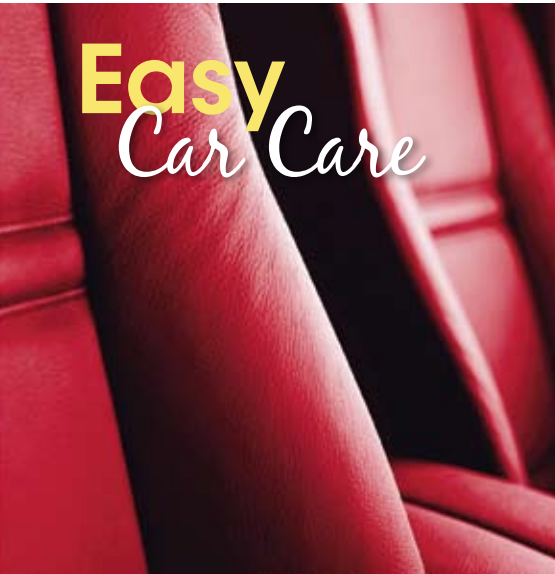

When vacuuming untreated carpets (with a normal vacuum cleaner) only 60% of the dirt is removed, the other 40% builds up in the carpet. When they are treated with E-Gard up to 40% extra is vacuumed away! Carpets treated with E-Gard stay cleaner for a longer period than untreated carpet – saving you money.

from only \$30 per sqm including product

Protection is Guaranteed!

Your carpets and furnishings are costly investments – give them guaranteed protection against oil and water-based stains with E-Gard. Carpets stay cleaner for longer and fabrics have an extended life... guaranteed for 3 years!

An Electrodry Franchise

One of the Best Investments You'll Make!

Car Care

Look no further than Electrodry Carpet Cleaning for a professional car carpet and upholstery cleaning service. We will attend to your car at your home or workplace.

Electrodry technicians are experienced car grooming professionals, delivering a superior cleaning service on both **leather and fabric** upholstery.

Electrodry carpet and upholstery cleaning removes unsightly stains and leaves your car smelling fresh. We make being in your car a more enjoyable experience, while helping to maintain the value of your expensive investment.

There's simply no substitute for regular professional care of the interior of your car.

Does your house get that stuffy smell?

Would you rather a crisp, fresh and healthy home with that outdoor freshness feel?

That stuffy smell can be from the build up of invisible microbes in the air in your home. Every day there are mould spores, bacteria and other allergens in the air all around us so small that we can't see them.

In your home you don't have the air flow that you have outside to remove these unwanted particles, so as time goes on these little nasties grow in number and create many different odours. They can even lead to health issues for you and your family.

Air Correct WILL jump-start the health and freshness of the air in your home. It will remove these allergens and odour creators allowing your inside air to return to equilibrium with the outside air.

With Air Correct, your house will smell fresh like crisp mountain air, making your home clean, healthy and inviting.

Tile and Grout, Air Correct, Restoration, Mould and Air Conditioner cleaning not available in all areas.

Air Conditioner Cleaning

You can reduce your energy usage up to 10% by having your air conditioning system cleaned.

Air Conditioner Cleaning by Electrodry removes the mould, dirt and contaminants from your air conditioner. The removal of mould and contaminants will enable your air conditioner to function effectively, dramatically increasing cooling and airflow.

The Electrodry Difference:

- One of the best returns on capital investment of any franchise in Australia
- Industry-leading marketing programs and on-going advertising to promote your business
- Unique cleaning systems that deliver real results
- Comprehensive training
- Ongoing business support
- **The only professional carpet cleaner approved by the Sensitive Choice program of the National Asthma Council Australia**

Carpet Stain Removal Guide

TYPE OF STAIN	TREATMENT
Beer, Excrement, Urine, Egg, Ice-Cream, Vomit, Mustard, Chocolate, White Wine	Treat with Electro 3 Spot and Stain remover as per directions on the bottle.
Butter, Oil, Grease, Cocoa, Salad Dressing, Shoe Polish, Coffee, Metal Polish, Lipstick, Cooking Oil, Furniture Polish, Cream, Crayon	Treat with Electro 3 Spot Remover as per directions on the bottle. If unsuccessful then treat with mineral turpentine. CAUTION: Ensure that no flame or lighted cigarette is near, and use in a well ventilated area. Then rinse with cold water for cocoa and coffee. When using mineral turpentine first apply to cloth, not directly onto the carpet.
Candlewax, Paint (oil-based), Tar	Equal quantities of dry cleaning fluid and mineral turpentine. Apply to cloth first.
Grass, Ink (ball-point), Texta Colour	Methylated spirits. CAUTION: Please refer to instructions for this product. Apply to towel first. Place towel on top of stain and press down to absorb moisture (or roll a towel over the area).
Burn or Scorch	Jobs of this nature can be rectified through carpet repairs.
Blood, Beetroot	Cold water. Call your local Electrodry technician for jobs of this nature if cold water does not work.
Chewing Gum	Aerosol freezing agent or dry ice and break off.
Rust	Rust remover or mild acid (such as citric acid), then rinse with cold water.
Nail Polish	Nail polish remover and may also need a dye stripper.
Red Wine	Soda water and mop up, or sprinkle salt on spillage and leave overnight then vacuum.
Fruit Juice, Gravy, Milk, Soft Drinks	Use cold water – not hot.

GENERAL INFORMATION

1. Remove excess 'problem' with knife or towel – press firmly but not too hard.
2. Apply treatment working into the middle of the stain not from the centre outwards.
3. NEVER RUB woollen or part woollen carpets.
4. Always dry carpet off with a towel after treatment.

NOTE: While advice is offered, NO responsibility is accepted for claims arising from treatment proposed. If treatment fails call your Electrodry Carpet Cleaner immediately. Electro 3 can be purchased from your local Electrodry Technician.

Fire & Water Restoration

Electrodry's specialised restoration division provides emergency fire and water restoration services following a storm, burst pipe or fire.
