TITAN MOVES THE WORLD

# WHAT WE DO BEST

## LOCAL PEOPLE WITH INTERNATIONAL BACKING

Titan is a global leader in off-highway wheels, tires and undercarriages, with roots tracing back more than 120 years to the Electric Wheel Company in Quincy, Illinois.

As the only manufacturer with the ability to design, test and manufacture wheels, tires, tracks and undercarriage components for agriculture, construction, forestry and mining, Titan has a unique, competitive advantage as a complete solutions provider.

Titan has a heritage of over 100 years and is the world's largest manufacturer of off-highway wheels and have complete research and development test facilities to validate wheel and rim designs.

With a nation-wide network of sales distribution and service hubs including tyre, wheel and ITM undercarriage service centre's, wheel and axle manufacturing facilities and a large fleet of OTR tyre fitting service trucks, Titan Australia is the only 'one stop shop' full ground contact solution provider that can truly make a difference to our customers' bottom-line.

Titan provide complete customer support service, including tyre, wheel and undercarriage sourcing, management and onsite/offsite service, as well as in-house repair/certification for wheels & undercarriage by fully qualified personnel in accordance with applicable Australian Standards.

## TYRES

As tyre specialists we are more than just tyre dealers or suppliers – wherever you are and whatever your vehicle or fleet, we are your total tyre services team.

Our knowledge of the Australian market and global tyre brands is second to none. We also understand the unique challenges of the Australian environment, whether you own a passenger vehicle or you are responsible for an entire fleet of industrial, mining, construction or agricultural vehicles.

When you combine this with our range of tyre products and services it sets the benchmark for quality and responsiveness.

## TYRE FITTING SERVICES

Titan Australia own and operate a large fleet of dedicated tyre handler grab trucks in Australia.

Titan are the OTR tyre and rim maintenance service provider of choice to a diverse client base dominated by mining companies, civil contractors, transport & Logistics Operators and OEM equipment suppliers. All tyre fitting vehicles are maned by experienced CERT 2 Qualified fitters who, in addition to regular day-to-day tyre fitting jobs, are also inducted on a wide range of mining and construction sites.

## WHEELS

Titan is the market leader in the design, development and manufacture of wheels to the agricultural, construction and mining industry. Titan also provides complete in-house wheel & rim inspection, repair and certification services by fully qualified personnel in accordance AS:4457.1-2007 and related Australian Standards in WA, QLD, NSW & VIC.

### Made In Australia

Supplying the worlds most respected original equipment manufactures, including Caterpillar, Volvo, Komatsu and Liebherr, Titan's state of the art facility in Brisbane is renowned for quality, expertise, service and delivery.

### OEM Fitment On CAT® 793F & 797F Mining Trucks

Titan's Quick Change Rim(QCR) solutions include various designs including our patented OVM wheel system used by Caterpillar as the QCR system of choice on their 793F and 797F ultra-class mining trucks. The Quick Change Rim System (QCR) is designed to improve mine site productivity by minimizing downtime associated with tyre servicing/rotation and to improve safety for tyre service personnel. The QCR System provides an increased crack test interval, longer rim life, improved safety and fewer rim based remove/install procedures during tyre changes.

Caterpillar offers the QCR System fitted to all six wheel positions and is available as an attachment option for both the 793F and 797F at the OEM level.

## ITM UNDERCARRIAGE

### 60 Years Of Excellence

ITM, a 100% owned subsidiary of Titan International, is a world leading specialist designer and manufacturer of undercarriage components, covering the entire range of modern crawler machine applications in the construction, mining, utility, forestry, road building, and agricultural industries. Titan Australia provide OE & Aftermarket specialist sales & service support for ITM products across Australia.

## WHEELS - TYRES - AXLES

### Manufactured In Australia - Mildura, Victoria

Titan offers a complete range of wheels, from 6" through to 54" in diameter, including fixed welded wheels, adjustable bolted tractor wheels, demountable (spider mount) rim options and clip-on dual applications. Titan also carries a complete axle assembly and spare parts range tailored to suit the needs of our national OEM and aftermarket customers.

### Low Sidewall (LSW)

LSW assemblies feature a larger rim diameter and smaller tire sidewall than conventional tire and wheel assemblies. LSW technology is helping to eliminate problems that farmers face including road lope, power hop and soil compaction.

In a fast-moving industry, Titan Australia is ahead of the curve with its revolutionary new Low Sidewall (LSW) technology that has just hit the Australian market.
