

Music for Now.

Where Music and Learning Play

From dancing with your baby to hearing the notes of your child's first composition, Kindermusik is that one special place where you and your child can play, sing, dance, and giggle together. A trained, licensed Kindermusik educator joyfully guides the class from one activity to the next and helps you understand what your child is learning musically, cognitively, and developmentally.

Babies

Boosts baby's brain and your bond!

Music is one of your baby's favorite things – AND it's one of the best things for your baby's developing mind. Babies' brains are filled with billions of neurons just waiting to be connected through sensory stimulation. That's what we do when we're in Kindermusik: we offer a sensory rich environment, complete with music, movement and fun, to create and strengthen baby's neural pathways. Each Kindermusik class touches on every learning domain, creates special bonding moments, and begins to instill a lifelong love of music.

Toddlers

Encourages creativity and confidence!

Each week, you can nurture your toddler's energy and creativity in a Kindermusik class designed for your child on the move! We understand that toddlers want to do it all, but really thrive most with your guidance and helping hand. So, we allow plenty of room for busy toddlers to explore and discover, to initiate their own ideas, and to respond in their own ways, while your active participation provides the security your child needs. As you play instruments, sing, and dance, you'll uncover an engaging musical world while building your toddler's confidence, self-control, and early language skills.

Preschoolers

Inspires imagination and musical curiosity!

Kindermusik offers your preschooler the best of everything. We've got social, emotional, early language, and motor skill development covered, plus your child gets the added benefit of music permeating everything we do to get those neurons firing! Have you noticed your child's explosion in vocabulary, storytelling, and imagination? We know that preschoolers thrive on pretend play so Kindermusik classes include songs, stories, and instrument ensembles to nurture your child's budding creativity. Bonus: it's fun! With cognitive, emotional, and social benefits, a Kindermusik class is the perfect place for your preschooler.

Skills for Life.

Big Kids

Strengthens musical foundations!

Young children who continue Kindermusik class into early school age will develop a greater capacity for learning and a lifelong love of music. In Kindermusik class, your budding musician will be introduced to fundamental musical concepts, notation, and the basics of vocal development. Children explore a wide variety of musical styles and the instruments of the orchestra through group ensemble play, music, games, and stories from many cultures. These classes are a musical learning experience that set the stage for future school success and the transition into formal music lessons.
