LED Flood Lighting

Time and Cost effective White Light
Save up to 70% in electricity costs!

50,000hrs
WORKING
LIFESPAN

3 YEAR
WARRANTY

Cheaper Light

LED lighting requires less than HALF the power of conventional lights. You could SAVE thousands!

Better Light

LEDs provide BRIGHTER light with excellent colour rendering (CRI).

Environment Friendly

Using less power helps to reduce carbon emissions contributing to saving the environment as well as saving you money.

Less Maintenance

Our LED lights maintain their quality of light for up to FIVE times longer than conventional lights. Conventional lights can lose up to 70% of their brightness in 1 year.

Safer for you

LED lights are mercury-free and don't produce IR or UV rays, which can be harmful to humans.

No Warm Up

Our LED Flood lights are at full intensity only seconds after you turn them on, providing instant security and access lighting when you most need it.

CE & RoHS Compliant
