Contact us

Starting a new business, or wanting to promote your existing business online?

Cyber Web Designs is a family business creating **affordable web sites**, and **updating existing sites**, for small business, social groups and personal sites. We offer personal, professional service and advice.

Cyber Web Designs can design a new web site or upgrade your existing site to your specifications with no hidden costs or monthly fees.

Our web designs are **functional, effective, simple to navigate** and **user friendly**. We pride ourselves in designing sites that target your desired audience and meet your specific needs.

Our fees are competitive and our service is expedient and professional.

Don't have a domain name?

Cyber Web Designs can help you register your domain name and arrange web hosting so you can be online quickly, easily and stress free.
