All Express businesses are independent franchises

As prescribed by Workplace and Occupational Health and Safety Regulations, the person having control of a workplace or access to that workplace i.e employer, self-employed person or main contractor, should ensure that all plug-in electrical equipment and residual current devices (RCDs) at the workplace are safe and inspected, tested and tagged, by a competent and trained person to be in compliance with the Australian Standard AS3760 2010.

WHAT SHOULD BE TESTED

- Microwaves
- Extension leads & power boards
- Fork lift chargers
- Computers & monitors
- Vacuum cleaners
- Residual Current Devices (RCDs)
- Printers, fax machines & copiers
- Portable air-conditioners
- Electric power tools
- Desk & table lamps

100+ EXPRESS

Each approved item is inspected for damage and or wear, then tested on our state of the art instruments to ensure safety and legal compliance.

From just **\$4.50** ea

10+ EXPRESS

Our trained professional operators will visit you and test up to 10 electrical items. Each approved item is tagged to ensure safety and legal compliance.
