# Zoya Nail Polish & Qtica

Art of Beauty USA was founded in 1986 by Zoya and Michael Reyzis. They had a shared vision, which evolved from a small nail salon into a spa focusing on natural nails, skin care and alternative European herbal treatments. Today, the company has grown to become a manufacturer of the most innovative professional beauty products ever created. Our brands include Zoya, Qtica, Smart Spa and Zoom.

Zoya, originally a classical pianist in Russia, earned her Cosmetology license in 1979 when she and her husband Michael immigrated to the United States. While pianist jobs were limited, the world of cosmetology offered a new profession and a means by which to build a new career. Through Zoya's hard work, and a demand for quality and healthy, natural ingredients for her clients, it became evident that there was a need for the perfect products. Responding to his wife's requests. Michael, an advanced chemist, developed and patented the first working fast drying topcoat and the longest wearing, toxin free natural nail polish, revolutionizing the nail industry.

Today, Zoya, Michael and everyone at Art of Beauty focus on creating the highest quality products available to professional salons and spas. Through brands like ZOYA Nail Lacquers, QTICA Treatments and QTICA SMART SPA, Art of Beauty offers salons and spas superior quality, convenience and incredible value. As the first to remove toxic ingredients such as toluene, camphor, formaldehyde, formaldehyde resin and DBP (dibutyl phthalate) from its formulations, Art of Beauty maintains its focus on the health and well being of salons, spas and consumers.

If you would like to try a Zoya Nail Polish, please call us for a complimentary sample.

# Oligodermie

Oligodermie was created in 1976 by a French Esthetic Doctor, Doctor Jean-Jacques Legrand. Expert in skin beauty, Dr Legrand has illustrated himself by his research and is now the President of the French Society of Aesthetic Medecine and General Secretary of International Union of Aesthetic Medecine, His aim in 1976 was to specialise in the manufacture and distribution of top quality face and body skincare products for both professional and retail use.

Dr Legrand has since retired from working in the business for 25 years. Edward Gerigne is the current owner of Oligodermie and has been working very hard to ensure that every new product developed still has the philosophy & spirit of Dr Legrand in mind

Oligodermie products are based on various active ingredients, such as natural plant extracts, vitamins, essential oils, enzymes and marine algae, (which have been chosen for their individual properties), therefore enabling you to use the product with the utmost confidence in order to achieve immediate results.

Beauticians across the world, hold Oligodermie in high esteem due to the quality and effectiveness of the formula which, in the spirit of its founder, combine fundamental vegetal and marine elements with the latest generation of active ingredients to offer the skin innovative products.

Oligodermie specialize in more than 250 professional products, each one formulated to achieve optimum results. The product range covers all professional salons, spas and resort and there is a product to suit almost every situation.

Oligodermie is now present in almost 50 countries and more than 10,000 salons worldwide. With that many salons on board, you can't go wrong with giving Oligodermie a try!

If you would like to receive a full catalogue on the Oligodermie skincare rage, please contact us.

# JB Lashes

JB Cosmetics, manufacturers of JB Lashes, is the original eyelash extension exporters of America, and the major provider of this product even before it became a hit in Hollywood. Today, you can still count on us to provide improved products and latest techniques that are sure to significantly enhance your eyelash extension business.

JB Lashes Eyelash Extensions offers you the professional way to beautiful, longer, thicker and fuller lashes. JB Lashes' superior quality lashes make all the difference in the wearer's appearance. Thick and beautifully curled, these lashes are completely safe for skin, eyes, and contact lenses. Just like real lashes, they are resistant to water, pool chlorine, and perspiration.

Get on board with the industry's most exciting and profitable new service. Eyelash extensions were first introduced to the American market by JB Lashes in 2004 and has been taking the beauty industry by storm ever since. Add eyelash extensions to your existing services and your revenue can increase.

**First...** JB Lashes was the first exporter of eyelash extensions. Our products were designed, developed and manufactured by the beauty industries most knowledgeable and experienced team of professionals.

**Best...** Quality is what made JB Lashes the #1 Lash extension company on a global basis.

**Different...** Experience. Who says you have to sacrifice quality over price? At JB Lashes, all our products are made in the USA by JB Cosmetics.

Need Training in Eyelash Extensions? SA Beauty Supplies can give you training by our certified consultant. Call us today for more information
