

February 19, 2011

A highly interactive, professional, easily searched website is critical to the success of any business large or small in today's marketplace.

Do you feel daunted when thinking about starting your own website? Do you feel confused about what different terms mean and unsure of which package out there is the right one for your business?

That's why you need Australian Website Solutions. We can create fantastic tailored websites with everything you need. We upload your company information, design the pages and create any online forms; you even get your own personal website manager!

Australian Website Solutions Provide:-

- Website's from \$599 Aud
- 3-12 months hosting fee (saving over \$100)
- Free domain names with every 12months of professional hosting
- Dedicated ongoing advice and support
- Free link on our website
- Backups and 100% privacy
- Search Engine Optimisation services
- Friendly, personalised service always with a smile
- NSW based, not outsourced overseas, boost Australian business and get a real voice at the end of the phone

Want to know how your website could look? Contact me now for a no obligation quote and design mock up. Please contact us using our email form, check out our website on www.auws.com.au or call 02 43519602.

We look forward to creating a dynamic website for your business or improving the one you have to increase sales for you!

Kind Regards
