

Maternity sizes correspond to your non-pregnant size. In other words, if you are normally a size 12, you will still want to purchase a size 12 in maternity clothing. The designs allow for your extra bump to be accommodated, right up until you give birth.

If you'd like to double-check the dimensions of any particular product, you're welcome to contact us at [service@maternitysale.com.au](mailto:service@maternitysale.com.au) – just tell us which item and whether you want bust, waist or any other measurement of a particular garment.
