

SOLAR PRICE LIST 2013

1.5kW System \$2999[^]

- System Capacity : 1.5 kW
- No's of Panels : 6 X 250 W Solar Panels
- Inverter Capacity : 1.5kW
- Return On Investment : 4 to 6 Years*
- Output : from 1,851 to 2,737 kWh/year*
- Estimated Saving : from \$421 to \$801 p.a.*

2.0kW System \$3899[^]

- System Capacity : 2 kW
- No's of Panels : 8 X 250 W Solar Panels
- Inverter Capacity : 2.2kW
- Return On Investment : 4 to 6 Years*
- Output : from 2,468 to 3,650 kWh/year*
- Estimated Saving : from \$562 to \$899 p.a.*

3.0kW System \$5499[^]

- System Capacity : 3 kW
- No's of Panels : 12 X 250 W Solar Panels
- Inverter Capacity : 3.0kW
- Return On Investment : 4 to 6 Years*
- Output : from 3,832 to 5,475 kWh/year*
- Estimated Saving : from \$588 to \$1,150 p.a.*

4.0kW System \$ 6499[^]

- System Capacity : 4 kW
- No's of Panels : 16 X 250 W Solar Panels
- Inverter Capacity : 4.4kW
- Return On Investment : 4 to 6 Years*
- Output : from 5,110 to 7,300 kWh/year*
- Estimated Saving : from \$1124 to \$1,625 p.a.*

5.0kW System \$7499[^]

- System Capacity : 5 kW
- No's of Panels : 20 X 250 W Solar Panels
- Inverter Capacity : 5.0kW
- Return On Investment : 4 to 6 Years*
- Output : from 6,387 to 9,125 kWh/year*
- Estimated Saving : from \$1,405 to \$1,906 p.a.*

10.0kW System \$14999[^]

- System Capacity : 10 kW
- No's of Panels : 40 X 250 W Solar Panels
- Inverter Capacity : 2 x 5.0kW
- Return On Investment : 4 to 6 Years*
- Output : from 12,775 to 18,250 kWh/year*
- Estimated Saving : from \$2,810 to \$3,812 p.a.*

* All calculations are estimates based on publicly available data provided by the Clean Energy Council. The level of savings a customer will make depends on their location and their individual circumstances. These calculations also assume that 50% of the electricity produced by the customer will be used for their daily household needs, with the remaining power fed back into the grid through their electricity retailer. Please contact our trained solar specialists on 0413 415 296 to discuss your specific circumstances now.

[^]All prices are for a single storey building with a tin or Colorbond roof and assume switchboard is in a suitable condition/location. Price includes an upfront discount if STC's are assigned to A.C.E.S. Air Con Electrical & Solar. For further detail please refer to our full terms & Conditions
