Would you like to:

- Reduce your impact on the environment and improve your bottom line?
- Save money, reduce wastage and improve efficiency?
- Gain a competitive edge and attract new customers?

Then **GreenBizCheck** has the ideal solution for you.

Take the green advantage

GreenBizCheck has developed a world-leading online environmental certification program that helps office based businesses of all sizes become greener, improve efficiency, reduce resource wastage and save money - guaranteed.

Program features and benefits include:

- **Cost savings** - you can save thousands of dollars through greater efficiency saving energy, water and other resources.
- **Independent certification** - our comprehensive, online assessment covers energy, water, waste and recycling, transportation and travel, supply chain sustainability, and voluntary Carbon Compensation.
- **Immediate reporting and action plans** - to help you quickly achieve your credible and independent green certification.
- **Handy online tools and tips** - including videos, FAQ's, information and other useful resources to help you.
- **Maximising your green credentials** - certification provides your company with effective marketing and PR opportunities designed to attract profitable new business.

Green business is good business

If like most businesses, improving sales and bottom line results are at the top of your priorities, then consider the advantages of greening your business:

- Save money as you improve efficiency, reduce resource consumption and wastage
- Gain a competitive edge
- Reduce your risks and costs of regulatory compliance
- Attract new sales as customers and clients become more eco-conscious
- Demonstrate a real commitment to Corporate Social Responsibility.
