“I would like to confirm that We at Ezko Property Services (Aust) have been using Greg Wieckowski ABN 12833837240 for painting services. We have found that he has prompt always courteous and he did a very good job. I would strongly recommend his services.”

George Wajda – Ezko Property Services

“My adventure with Farbex”

I decide to have my kitchen and living area painted and got Farbex, from a recommendation, to do it. I was at home most of the time and I saw the quality of preparation of surface, attention to details in both preparation and finish of the timber windows frames, ceiling and walls. This is still a stunningly looking job.

A few weeks later, I decided to impress my wife and climbed into the cavity between the ceiling and the roof to put a few pieces of insulation that I had left over from a recently built studio. Right at the end, I lost my balanced and went through the ceiling in my lounge room. I was fine but my lounge room was not. I called Greg, as he had told me he can do ‘anything’ inside of any house. This was on Friday, they came on Saturday, Sunday and Monday night(as they had other job going) to fix up a big hole in my ceiling, painted the whole room including the timber window frame, huge book shelf and walls. I was so lucky to have them then. Now, I only recommend Farbex. Yes, I am biased but you know why.

David from Cheltenham NSW

“Having owned and run real estate agencies for the past 25 years, I understand the importance of dealing with trusted and reliable tradespeople. My reputation depends on it. I have used Greg to paint my own properties and have recommended him numerous times to my clients as a decent, hard working and honest painter. He has been trusted with keys to vacant and occupied properties, and takes the responsibility very seriously. He always leaves his workplace as clean and tidy as he found it. I never have any concern when I know that Greg is the painter on site and have never had any complaints from my tenants or clients.”

CliqueProperty – Real Estate

“Fabrex Painting are a family operated business with a passion for improving the living spaces in your home and bringing new life to your home’s frontage. I had a great relationship with the team - they answered all my problems and queries and got the job done in an efficient and friendly way. Highly recommended”

Colours Consultation

The paint selection display in a home decorating centre can hold more than a thousand different colours and wallcovering sample books. That's way it is good to meet with our professional design consultants who can help customers to make a right decision.

Creating a Mood

Why do we find one room appealing and feel uneasy in another? Why are we attracted to one product over another? Colour, whether architectural or in products accounts for 60 percent of our response to an object or a place.

Colour use is important to us personally in our homes and in the places where we work. Even without changes of furniture or carpeting, a fresh infusion of colour and pattern can transform the most ordinary room into an inviting living space.

If you are having trouble deciding on a decorating scheme for a room, it may help to think about how you want to feel when you use the room. You may want a kitchen that makes you feel cheerful or a bedroom that puts you into a relaxed frame of mind.
