

What others are saying about Nopalea

“For many years I have lived with sometimes debilitating pain from a degenerative joint condition. I have tried various remedies with very little result. My pain was so bad at times it was difficult just to do some gardening. So, you can imagine my excitement when this awful pain started getting better with Nopalea – and I have only been drinking it for 30 days.”*

Valerie S., Affiliate Member – Frankston, VIC

**If symptoms persist, consult your healthcare provider*

“Today, after four weeks of taking the Nopalea, I have walked for 60 minutes in a shopping complex on hard marble floors without pain in my leg. This is the first time in 6 years and thanks to Nopalea!”

Lars F., Affiliate Member – Willetton, WA

“I started drinking Nopalea a couple of months ago. The results are very impressive. I sleep a whole lot better and the soreness in my feet which kept me awake at night has gone away. In fact, after two months of the Nopalea Loading Phase, I am now sleeping like a top and feel full of vim again.”

Paul R., Affiliate Member – Hallett Cove, SA

Welcome to Nopalea™

Change your life for the better!

This amazing and delicious superfruit product is unlike any other

There are many superfruit, antioxidant products that claim to help the body. However, none of them have the clinical research that Nopalea's superfruit does for helping the body detoxify and reduce inflammation. This is so important because science now considers inflammation as the number one precursor to dangerous and life threatening disease.

Chronic inflammation is the problem

Chronic inflammation causes too many people to suffer from various health problems like these:

- Muscle, joint and bone inflammation – causing ongoing body pain
- Respiratory inflammation – causing allergies
- Arterial inflammation – causing heart health problems
- Digestive tract inflammation – causing gas, bloating and cramps
- Widespread body cell inflammation – causing overall fatigue

Nopalea – a superior inflammation solution

The perfect way to help protect your body against the damaging effects of chronic inflammation is Nopalea. It contains an abundance of amazing Bioflavonoids. When they enter your system, they begin to help restore vitality at the cellular level. They do this by helping your body reduce the toxins surrounding sites of existing inflammation, which keeps the inflammation from becoming chronic and then creating more serious health problems.

Scientifically-validated benefits

Nopalea gets its Bioflavonoids from the fruit of the Nopal cactus (Opuntia Ficus Indica), which contains one of the highest concentrations of this antioxidant in all of nature. These Bioflavonoids – a rare and potent class of natural antioxidants -- have been scientifically proven, in hundreds of studies, to help the body detoxify itself and reduce inflammation.

So many benefits in every bottle

Nopalea helps your body in three vital ways:

- Reducing chronic inflammation
- Neutralizing inner toxins
- Achieving optimal cellular health

Start feeling better right away!

Nopalea helps your body get the relief it needs today ... while also helping to protect it against the debilitating conditions of tomorrow. It's a healthy solution for today's unhealthy world.

Frequently Asked Questions

What is Nopalea?

Nopalea is a deliciously unique concentrated wellness liquid that blends antioxidant-rich Nopal cactus, naturally sweet Agave nectar and an array of beneficial nutrients. These fresh ingredients are carefully harvested from the Sonoran Desert and aseptically bottled to deliver scientifically-proven health benefits.

What are the key benefits of Nopalea?

Bioflavonoid antioxidants in Nopalea have been scientifically proven to help your body:

- Relieve inflammation-related pain
- Reduce swelling in joints and muscles
- Add valuable extra antioxidant power
- Feel energised
- Achieve optimal cellular function through improved body functions

What research has been done on the Nopal Cactus?

To date, hundreds of scientific papers have been published on the benefits and attributes of the Nopal cactus in the highest quality, peer-reviewed journals. These are supported by the United States' National Institutes of Health database to ensure that the conclusions are valid. They report improvements in cell action, immune function, detoxification and especially a reduction in inflammation.

How much Nopalea should I take?

When taking Nopalea for the first time, drink 90 to 180 ml each day, for 30 days. For maintenance, drink 30 to 90 ml daily, depending on your body's inflammation-fighting needs.
