

# Have you checked the condition of your flexible hoses?

Found in kitchens, bathrooms and laundries under the vanity or sink, these hoses need regular checks to ensure they are in good working order or the results can be disastrous.

This image shows a rusted hose that needs replacing (The far hose) and a hose that is in good condition.

This image shows a burst hose which can happen at any time to a rusty or damaged hose and cause extensive damage from flooding in the home.

Its time to check your flexible hoses, call us today and speak with a licenced plumber.

We use **DURA** flexible hoses that come with a 10 year domestic use warranty when installed by a licenced plumber\*
