

ABOUT BLISS-FOX

Bliss-Fox GSE offers the complete package, from design and manufacture to sales and maintenance, of leading-edge equipment that your business can rely on.

Bliss-Fox Ground Support Equipment (GSE) is a specialist division of the Australian-owned and highly regarded Nepean Group, a company with a history of over 60 years of engineering excellence.

Offering a range of world-class pushback and tow tractors for the aviation industry and general industrial markets, Bliss-Fox GSE is rapidly gaining wider international recognition and acclaim for equipment that combines quality, reliability and an innovative design.

Significant investment in research and development has ensured that Bliss-Fox GSE products remain at the cutting edge of the field. Many international airlines, airports and ground handling companies already depend on the Bliss-Fox GSE team for their aircraft towing needs and new equipment, currently in the design and production stage with the company, has the capacity to revolutionise this market.

Bliss-Fox GSE also prides itself on providing a "complete solution" for clients by offering an

international sales and distribution service as well as an on-going maintenance program for towing equipment, regardless of the original manufacturer. Bliss-Fox GSE has expanded its operations to include dedicated teams that service clients' operations internationally and offer on-the-ground support overseas.

As well as tow tractors, Bliss-Fox GSE also provides design, manufacture and assembly services for the custom-built industrial vehicle market, and specialty products such as self-powered lighting towers.

The highly-skilled manufacturing team at Bliss-Fox GSE is based at an Australian plant in south western Sydney that is ISO 9002 accredited and features state-of-the-art equipment, extensive machine rooms, fabrication bays, assembly lines and tool rooms. With the support and combined resources of the Nepean Group, one of Australia's largest engineering enterprises, Bliss-Fox GSE will continue to expand internationally and further develop its already impressive product range.
