“We need you to want to be a part of this promotion, by distributing 20 000 units nationally we can expand our production line here in Australia to make our first Australian Design and Australian Made MP3 player for our Australian Music.

With our own designs and with the Australian Made Quality, we will have the latest edge with the Licensed Music Content. We want to not only suppose the CD as way of downloading and selling music internationally.

This is the first major step towards music kiosks, apposed to CD Stores, music kiosks can be located anywhere in any kind of store for many purposes of movies through to music.

For every 100 units purchased, you or your store go into the draw to win one of

our 32” LCD TV Monitors.

You can either resell or give away to your clients we have a 12 month replacement warranty on our MP3 so you and your clients will be assured of a great product and great Australian Music to enjoy from going to your store. As a promotional gift these are really going to leave a good impression with your clients.

We have been producing these products for Telstra for 2 years and since our first “Telstra Approved Promotion” for Melbourne in 2006 we have spread across Australia in 2007 Nationally from Townsville to Kalgoorlie.

We need everyone to help us on our quest to make our brand of Electrical and Electronic Products, Syron here in Australia. By purchasing our MP3 with Australian Music, you’ll be promoting your company, the bands that are on the MP3 Players and us as well to move one step closer to our goals.

Other areas we need help in are, if you know any great Australian Bands that want to have their music on the MP3 players we are having a Battle of the Bands til Christmas to coincide with the Syron Mp3 Players. Or if you would like to sponsor or Co- Partner our competition we are always looking for other prizes to give away or further advertising.

Our first TV commercial will be showing in Melbourne between November and January, this commercial will be to promote the MP3 players, the stores to get them from and the bands that music will be heard across Australia.

We hope you can see our goals and if you would be interested to help just let us know how you want to help.”
