About Earth Renewable Products

Earth Renewable Products is a wholly owned brand of Solo Pak Pty Ltd.

Earth Renewable is Solo Pak's venture into the world of Sustainable Green Chemistry which it is passionately embracing to move its Manufacturing and Product Systems toward safer, environmentally sustainable and more efficient practices.

Solo Pak has substantially completed its journey to environmental responsibility through the implementation of an Environmental Management System and Quality Processes. Compliant with Globally Harmonised System classification and labelling and safety data sheets (SDS) of chemicals.

Solo Pak currently has 10 products accredited under the Good Environmental Choice Australia (GECA). When a product is certified against GECA's Cleaning Products Standard (CPv2.2ii-2012), you can be sure that the product has been assessed to meet environmental, human health and ethical impact criteria. GECA certification removes doubt and confusion and makes identifying environmentally and socially preferable products easier. Please choose GECA accredited products to achieve the maximum benefit of health for people under your care and an environmentally sustainable future including a minimal carbon footprint.

We do not use any harmful VOC's in any of our Earth Renewable range of products.
