# Electrical

Service Today delivers a fast and professional response by our technicians. Every technician employed by Service Today is a professional tradesperson who is provided with continual training in the latest electrical and safety equipment and techniques.

You can rely on the technicians at Service Today to turn up on time, every time and to keep you informed about what is happening. Our technicians will explain everything that has to be done, before the job begins.

Service Today offers fast same-day electrical services, with no job too small or too large for our qualified tradespeople.

If you need an emergency repairs or installation of lighting or power, repairs or new installation of hot water systems or any other electrical services– you need a Service Today technician you can rely on.

Service Today's Technicians are fully insured and licensed and we clean up after ourselves; trouble-free electrical work is the only sign that tells you we've been there.

If you have a problem involving electrical services – Service Today has the solution. Call Service Today for the most reliable Technicians.
