## COMPOSITE DECKING

 **NexGEN**  
DECKING

**What is it made of?**

60% recycled hardwood, 40% recycled plastic composite.

**Is it the same as other composite decking?**

NO! Our unique non porous surface coating technology (similar to the cover on a golf ball) outperforms all others.

**How does the price compare to timber?**

Our pricing is similar to a good quality hardwood, however with no ongoing maintenance costs; our decking will save you time and money year after year.

**What maintenance is required?**

Virtually none, only occasional cleaning with soap and water or a pressure clean.

**What sort of warranty is there?**

The Industry's first 20 year Stain, Fade & Performance Warranty.

**How is it fixed?**

Each board is pre-grooved on both sides to take a hidden fastener system. This system ensures a quick, easy installation and a blemish free deck surface.

**Can you DIY?** Yes, it is very DIY friendly.

**Do I need special tools to cut it?**

No it cuts like normal hardwood.

**PermaTech Surface Technology**

**Ultra Low Maintenance Technology**

No stains, no pains. NexGen Decking with patent pending PermaTech is backed by a 20-year limited warranty, not that you will need it. Requiring only an occasional cleaning with soap and water, it is engineered to provide a scratch resistant, stain resistant, superior finish that will look beautiful and last for years to come.

NexGen's decking core for strength and rigidity.

Patent pending non-organic surface encases composite decking core. PermaTech surface innovation offers exceptional stain, fade and mould resistance.

**NexGen Decking Hidden Fasteners**

These stainless steel fasteners are designed to fit the NexGen grooved deck board for a quick and easy installation and produce blemish free surfaces.
